EDMONTON AND I.W.W.

"Professional agitators, connected with the Independent Workers of America, have directly encouraged the largest index of unemployed laborers in Edmonton at this time," said W. J. Magrath, president of the Edmonton Industrial Association. "These fire-brands are doing everything possible to embarrass our civic and provincial authorities, he continued, "but we will determine that the experiences of cities in the United States and elsewhere shall not be repeated in Edmonton. We have never invited or encouraged unskilled laborers or artisans to come to Edmonton,

unless they desire to engage in farming, either as laborers or farmers. We have endeavored to get 1,000 men on farms in central Alberta at once, but that is not what the ring-leaders of the I.W.W.'s want. Their sole aim and purpose is to start trouble and mark down every man who is not with them."

GREAT OIL STRIKE NEAR CALGARY

Oil Shales Jump from \$12.00 to
\$200.00 Each in One Day

The strike of oil in the well south of Calgary on Thursday is believed to be one of the most remarkable ever seen on the continent. Over a signed statement O. G. Devenish, president of the Canadian Oil Company, credits credit to a well which produced from 150 to 200 barrels every 24 hours of oil that analyses 62 barn-gravity, worth in the neighborhood of \$2,000 per day. In addition to the oil, the gas output is estimated at two million cubic feet daily. The gas well contains from one and one half gallons of gasoline to the 1,000 cubic feet, and it has been demonstrated that the direct gasoline which can be extracted from the gas at a profit. The well is located about 36 miles from Calgary to the south and 40 miles from Lethbridge.

Cunningham Craig, the British oil expert, whose opinion has weight with the British admiralty, says with regard to the oil field that the strike has proven beyond a doubt that there was a paying oil field in this part of Alberta. He adds that this was of the opinion that even better oil fields could be made with more development.

The strike of the Calgary Petroleum Products Co. advanced during Friday at \$12.50 to \$200, and there were sales at even a higher figure.

NEW ZEALAND CAPITAL FOR ALBERTA

James E. Buckley, a wealthy live stock grower, lately of New Zealand, announced in Edmonton that he had completed arrangements to buy a farm tract of 50 miles north of Edmonton where he will establish a sheep ranch, beginning with 10,000 animals this season. "New Zealand capital is interested in the project," Buckley said, and it is expected that other ranches will be started in a short time. These agricultural enterprises are also interested in woolens in England and Scotland. The success of the venture will depend mainly on establishing of casting, dyeing and weaving plants in Edmonton and other points in central Alberta.

In this connection with Hon. Duncan Marshall, Minister of Agriculture for Alberta, and W. F. Stevens, provincial livestock commissioner, who promised to give him and other sheep growers every encouragement and assistance in the new industry in this part of the country. It was also announced that the plant would be established at different points in central Alberta this season.

Mr. Buckley is a man in high esteem among many friends, who sincerely regret his untimely end. To his young widow, parents and other relatives is sympathy extended. The father and mother reside in California.

Mr. Buckley died in his sleep, his wife and two sons, a son and a daughter, surviving him.

FOOTBALL GAME

Hospital vs Clive

A football game was played between teams representing the Hospital and Clive on Friday the 18th inst., on the hospital grounds. Both teams were in good playing form, and on the game being started, Clive made it hot for the Hospital defence for the first ten minutes, but their efforts were neutralized by very erratic shooting. Play was then transferred to the Clive territory, and some splendid chances were missed—particularly those given to Mr. Earle, one of the largest of operations in the world, owing to the size of the principal oil companies. After the play had been started, Mr. Earle, the British Oil Co., one of the largest oil corporations in the world, having in addition to its already considerable holdings, the establishment of naval oil supply stations all over the globe, had recently joined the British Oil Co. and its subsidiary corporations, now all controlled by the English concern, in which many other nations are interested.

Limerick, Ireland, May 17.—The County Council unanimously resolved today to support the Nationalist volunteers movement of organizing a national force to uphold the authority of the crown and government of Ireland, and to assist the Ulster forces. The Ulster forces, Nationalist members of the house for East Limerick, during the course of a speech, said that all the volunteers would rally in Dublin to prevent the withdrawal of the deadly-won

troops.

Priest is due Chancellor for the brilliant game he played, also the two backs, while the star of the Clive team was the outside left, who worked hard and made some fine openings which the pivot failed to make use of.

The game was capably handled by E. G. Thorne.

Monday evening, a very fast game was played between teams made up of English and Scotch. There was no scoring in the first half of play, and on resuming the second half the ball got buried, thus ending the game, which will be replayed on Monday next.

PONOKA BOARD OF TRADE RE-ORGANIZED

A meeting was held in the town hall Friday evening for the purpose of re-organizing the Ponoka Board of Trade. There was a fair attendance, and on motion, L. G. Crozier was called upon to preside. He, in a few words, explained the aims of the meeting, and called for suggestions. A short discussion showed that those present were in agreement that the selection of officers was taken up, with the result that L. G. Crozier was elected president; T. J. Durkin, vice-president; Thos. W. Hutchinson, secretary; and an advisory board composed of W. M. Kennedy, R. K. Allan, and W. L. Stede.

The annual fee was fixed at \$2, and practically all in attendance subscribed. As the secretary's duties are heavy and exacting, it was decided to fix the salary at \$30 per month.

The president and secretary were instructed to get out pamphlets bearing on the town and district. Meetings are to be held on the second Thursday of each month at 8:30 p.m.

JEFFRIES
OF
TOWN AND
DISTRICT,

Local News.

Rev. Geo. F. Driver is attending the Methodist Conference in Calgary.

Geo. Nothwang, engineer, has rented one of the Patterson cottages in the north end of town.

John Sharkey and his road crew, of Lacombe, have been doing some road work in this vicinity.

Atgash.—On May 10th, Mr. and Mrs. F. E. Algar, of Edmonton, a daughter.

A farmer near Camrose has been fined \$10 for neglecting to send his two children to school. Parents will please take note.

Give the town council credit for what they have done in the way of graveling the streets. No patch work it has been liberally applied around the main block.

Prarie fires have been rather conspicuous around our districts for some time past, but happily no damage reported.

O. L. Webster had 13 good and true workmen on his building last week, and now the reconstruction is about completed. When this is done C. W. Segerstrom's will be attacked.

McLeenburgh, the graduate and long experienced eye expert, will again be at the Royal Hotel, Ponoka, on Tuesday, June 3rd.

The town of Lamont is the latest of our enterprising Alberta towns to boast of a newspaper. Good luck to Editor A. E. Larkins and the Lamont Tribune.

The Rutherford local branch of the United Farmers' Association will hold a picnic at the Earville Creamery on July 1st. Good programme, and everybody welcome.

The churches in town have arranged to hold their Sunday evening services at 7 p.m. in order that the congregations will have an opportunity of hearing Rev. R. L. Aldridge speak on Temperance and Moral Reform in town hall at 8 p.m.

The Ponoka baseball club had a team from Lacombe as their guests on Thursday evening. The game drew a large crowd, who witnessed some very fine play. At the finish, it was found that Lacombe had won by 4 points to 1. Ponoka has some splendid players, and before the season is far spent they ought to make a good showing.

The Methodist district meeting was held in Ponoka on Wednesday and Thursday of last week. Attendance was good. Reporters tried to show that this has been the best year in the history of the district, both as regards membership and finance.

E. Bignell, of Lincoln, Neb., was in our district last week. He had a splendid visit with his old friend, F. O'Donnell, both of whom were contractors in Nebraska. It was interesting to hear them compare notes, talk of what land could have been bought for when they were building the railroads, and how high it is now; the great cities and towns, where but a short time ago was the open wind-swept prairie. Mr. Bignell is satisfied that what has taken place in the Western States will certainly come to pass in Alberta, only more rapidly. He was delighted with what he saw of our country and the development that is taking place.

"By the way," said he, "I am good enough to be a minister." She was sorely troubled, but at last said, "Well, if you do think you are good enough to be a Minister, then go minister!"

A mere Alligation. "Why is it that a man generally says he is married when he is not?" "He doesn't. He only thinks he is married when he is getting along with one or so many things that he formerly had."

No Escapes.

The doctor's daughter anxious to explain the presence of a young man in the passage)—"Oh, Ronald, darling, there's another coming. Quite a few hours now, so you're going to have to leave out."

Murine Eye Remedy. "I took the Red Watch Water Eyes (transfused eyelids). Didn't Smart Soothes Eyes Pain. Druggist—Sek. Soothes Eyes Pain. Lotion—Sek. Soothes Eyes Pain. Eye Books Free by Mail. Murine Eye Remedy Co., Chicago."
